•18 Month• Questionnaire

On the following pages are questions about activities children do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please check the box that tells whether your child is doing the activity regularly, sometimes, or not yet.

Important Points to Remember:

\checkmark	Be sure to try each activity with your child before checking a box.
⊴	Try to make completing this questionnaire a game that is fun for you and your child.
√	Make sure your child is rested, fed, and ready to play.
V	Please return this questionnaire by
√	If you have any questions or concerns about your child or about this questionnaire, please call:
₫	Look forward to filling out another questionnaire in months.

At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, score "yes" for the item. YES SOMETIMES NOT YET **COMMUNICATION** Be sure to try each activity with your child. 1. When your child wants something, does she tell you by *pointing* to it? When you ask him to, does your child go into another room to find a familiar toy or object? (You might ask, "Where is your ball?" or say, "Bring me your coat" or "Go get your blanket.") 3. Does your child imitate a two-word sentence? For example, when you say a two-word phrase, such as "Mama eat," "Daddy play," "Go home," or "What's this?" does your child say both words back to you? (Check "yes" even if her words are difficult to understand.) Does your child say eight or more words in addition to "Mama" and "Dada"? Without showing him first, does your child point to the correct picture when you say, "Show me the kitty" or ask, "Where is the dog?" (He needs to identify only one picture correctly.) Does your child say two or three words that represent different ideas together, such as "See dog," "Mommy come home," or "Kitty gone"? (Don't count word combinations that express one idea, such as "Bye-bye," "All gone," "All right," and "What's that?") Please give an example of your child's word combinations: COMMUNICATION TOTAL **GROSS MOTOR** Be sure to try each activity with your child. 1. Does your child bend over or squat to pick up an object from the floor and then stand up again without any support? 2. Does your child move around by walking, rather than by crawling on her hands and knees? 3. Does your child walk well and seldom fall? Does your child climb on an object such as a chair to reach something he wants? 5. Does your child walk down stairs if you hold onto one of her hands? (You can look for this at a store, on a playground, or at home.) 6. When you show him how to kick a large ball, does your child try to kick the ball by moving his leg forward or by walking into it? (If your child already kicks a ball, check "yes" for this item.) **GROSS MOTOR TOTAL**

FIN	NE MOTOR Be sure to try each activity with your cl		⁄ES	SOMETIMES N	OT YET	
1.	Does your child throw a small ball with a forward arm motion? (If he simply drops the ball, check "not yet" for this item.)					
2.	Does your child stack a small block or toy on top of and (You could also use spools of thread, small boxes, or to about 1 inch in size.)					
3.	Does your child make a mark on the paper with the <i>tip</i> of a crayon (or pencil or pen) when trying to draw?					
4.	Does your child stack three small blocks or toys on top by herself? (You can also use spools of thread, small be that are about 1 inch in size.)					
5.	Does your child turn the pages of a book by himself? (Homore than one page at a time.)	le may turn
